UNION MEETINGS IN AUGUST ONLY

PROTESTANT MINISTERS DECIDE ON SUMMER COURSE.

YOUNG PEOPLE WILL UNITE DURING JULY

Three Societies in Federation to Have Vacation—Plan Armenian Relief Day.

Union meetings of the Protestant churches of Maryville will be held in the evening Sundays during August, except for the first Sunday, which will be Chautauqua Sunday. This decision was reached by the Ministerial Alliance in a meeting Monday.

The place is yet to be decided upon but it is not probable that the courthouse yard will be chosen again, as so much objection has been raised to the noise and confusion of the streets even when three sides of the square are roped off. The school yard of the central building is being suggested since the Chautauqua is to be held there.

The three young people's societies making up the Union of Young People's Societies will follow a different plan, according to the decision of the cabinet of the union which met recently. The Epworth League of the Buchanan Street Methodist church and the Christian Endeavor of the Christian church will meet with the Young People's club of the Presbyterian church Sunday night, June 11.

The meeting on the third Sunday, June 18, will be at the Buchanan street church. At each of the two joint meetings the society at whose church the meeting is being held will prepare the program. Separate meetings will be held by the three societies on next Sunday and individual rallies for the final separate meeting of the summer will be held by each society on the last Sunday in June.

Union meetings at the young people's hour will be held the first four Sundays in July at some central location, probably the high school yard. Some time in the last week of July on a week day a picnic supper will be given by the union near the river or in the woods, followed by a religious service.

No meetings will be held during August, the officers and members believing that better work will be done next winter after a rest during the hottest month. It is possible that the young people may request the ministers to give them one night of the union preaching services in that month for a young people's program.

May Have Relief Day.

The Rev. William Moll Case, pastor of the Presbyterian church, was appointed by the Ministerial Alliance to take up the matter of an Armenian relief day in Maryville. This action was taken in response to the appeal of the Federal Council of Churches.

It is probable that if such a day is held it will be made general in nature and the funds sent to some agency for all way sufferers, both among the allies and the central powers.

TEACHERS EXAMS JUNE 23

Writing at Maryville Business College and High School—New Ruling Causes Many to Enter.

The annual June teachers' examinations will be held in Maryville under the direction of County Superintendent Bert Cooper June 2 and 3. Teachers within Nodaway county will write at the Maryville Business College and those from without this county will write at the high school assembly room.

One hundred and sixty at the Normal assembly stated their intention of taking the examinations. Many who took the exams in March will do so again in an effort to raise their grades. A new ruling of the state department of schools will make it necessary for many to take the examinations. This provides that rural certificates cannot be renewed without two quarters' work in a Normal school instead of one, as previously required.

MRS. CAMERON IS 88

REMARKABLE SKIDMORE WOMAN CELEBRATES BIRTHDAY.

IN NODAWAY 70 YEARS

Not a Death in Family Since Death of Husband Fifty-five Years Ago—Milks Cow Every Day.

A woman of 88 years with six children who has not had a death in her immediate family since her husband died fifty-five years ago, celebrated her birthday at the home of her daughter in Skidmore Monday. She is Mrs. Martha E. Cameron, a woman of remarkable strength and activity.

Although within two years of four score and ten instead of three score and ten, Mrs. Cameron thinks little of walking several miles. Last winter she startled her children and the community by walking four miles and a half into Skidmore with no ill effects. She works daily in her garden and has not missed milking her cow in months.

Mrs. T. B. Slaughter gave the party Monday for her mother at which the six children, and the many grandchildren and great-grandchildren were gathered. The children are W. R., J. T. and J. H. Linville, Mrs. Lucinda Baldwin and Mrs. Mary Slaughter of Skidmore and Mrs. Sarah Hornbuckle of Clearmont.

Mrs. Cameron was born in Knoxville, Tenn., coming to Missouri with her parents when 4 years old. She has lived in the western part of Nodaway county for more than seventy years.

MAKE EUROPE IN AMERICA

Interesting Sidelight on Movie Industry in "Moral Fabric" at Fern Theatre Tonight.

Two items from the Triangle-Kay Bee studio at Inceville concerning the new release, "The Moral Fabric," are of interest as illuminating sidelights on the industry. It will be shown at the Fern theatre tonight and tomorrow night.

It appears that in the course of filming "The Moral Fabric" Thomas H. Ince, the producer, found himself required to duplicate the interior of the Sports club at Monte Carlo, the Palisades club of the Riviera and the Grand Canal at Venice. He felt that the unusual character of the picture called for unusual achievements and set about accomplishing results that would challenge criticism. Under his direction there presently rose in the studio an interior that would have deceived the most cosmopolitan gamester. This was the club at Monte Carlo.

The Palisades Club was more difficult. It was finally decided to build it on one of the big bluffs of the Inceville acreage, so that its windows present a view of the Pacific ocean, where it rounds into Santa Monica bay, forming a perspective that tourists say is an exact duplicate of a view of the Riviera. The cafe was furnished with characteristic Ince attention to detail and disregard of expense.

The "Venice of America," not far from Inceville, provided the Grand Canal, with the bridge of the Rialto already in place.

The Rev. C. H. John of Siloam Springs, Ark., who has been the guest of friends for a month, will leave tomorrow morning for his home. En route he will stop in Kansas City for a visit.

ALDERMAN BURNED

LIFE ENDANGERED BY GASOLINE STOVE CATCHING FIRE.

MUCH DAMAGE TO HOUSE

Home Had Just Been Repainted and Papered—Company Made Two Runs.

Fire, which threatened the life of I. K. Alderman yesterday morning, destroyed the kitchen of the Alderman home at 301 South Main, at 6 o'clock. A leaky gasoline stove was the cause of the fire, the entire stove breaking into flames when Mr. Alderman in his night clothes went out to light the fire.

He tried to carry the stove outside and was burned severely, but not seriously, about the face and hands. Failing in his effort to carry out the stove, Mr. Alderman turned in a fire alarm and then fought the flames with a garden hose until the fire company arrived. Everything within the kitchen was destroyed and the south part of the roof was burned away.

All of the loss is covered by insurance. No estimate has been made yet as to how great it was. The workmen had just finished painting and papering most of the house and most of this was burned away with the kitchen so that all will have to be rebuilt.

Smouldering sawdust in a gable where the kitchen roof joins the main part of the house caused another alarm to be turned in at 9 o'clock. This was put out without the water being turned on.

FRENCH BLAMES BIRRELL

MILITARY LEADER SAYS SECRETARY DIDN'T WANT TROOPS.

Testimony Is Flat Contradiction to That of Former Secretary—Other War News of Today.

Special to The Democrat-Forum.

London, May 31.—Viscount John French, commander-in-chief of the Home Forces, in a letter to the Chairman of the Royal commission investigating the Irish uprising, stated that the war office had abstained from sending troops to Ireland before the revolt upon the personal advice of former secretary for Ireland, Birrell.

This declaration is a direct contradiction of the statement made upon the witness stand by Birrell, who said that he begged the military authorities to send soldiers into Ireland to prevent the uprising.

Vienna, May 31.—Austrians are surrounding the Italians at Arscro, according to official statement from the war office today.

Fighting in Fog at Verdun.

Paris, May 31.—Before furious infantry attacks following a mighty cannonading of big guns by the French gains were made in the ground east of Hill 304 today. Falling back to Chatton Court, a station a mile and a half south of Cumeriers, the fighting took place in a big fog which settled down over the Verdun front at sunset.

Bulgarians Remain in Greece.

Saloniki, May 31.—French aeroplanes bombarded German and Bulgarian encampments at Givgeli. There were numerous casualties. There are important movements of Bulgarian troops in Greek Macedonia but the military authorities state there is no further fighting in the region of Demierhissar.

Clear Cumeriers of French.

Berlin, May 31.—The forest south of Cumeriers on the left bank of Meuse has been completely cleared of the French troops, it is officially reported by the war office. It says a lively fighting between the German and British is in progress in Artois.

The dinner given in compliment to the ex-soldiers in the basement of the First Methodist church yesterday by the W. R. C. was the most successful dinner given by the corps on this occasion. An excellent program was given. Prof. Harry A. Miller of the State Normal read Lincoln's Gettysburg address and the Rev. C. H. John of Siloam Springs, Ark., made the principal address. Mr. and Mrs. Case gave several vocal selections which were most enjoyable.

Sixty soldiers sat at one long table—color and wars making them one and the same. Among them were three Confederate and one Spanish-American soldier. They were: B. F. Duncan, C. Q. Smith, H. P. Childress and J. J. Bebout.

545 NORMAL STUDENTS HERE

About Five Hundred of These Are From Outside Maryville—Makes It Largest Term Ever.

Five hundred and forty-five students had registered at 2:30 o'clock this afternoon for the summer term of the State Normal school. Of this number it is estimated that only forty-five are Maryville students. This is the largest number that has registered for the summer term since the Normal was established here. About this number were enrolled throughout the whole summer term last year. Many Maryville pupils have not enrolled yet.

SHENANDOAH LOSES 9-3

MARYVILLE FEDS HAD HITTING BEE IN THREE INNINGS.

Both Pitchers, Thieman and Baldwin, Did Good Work—Poor Support for Week-Day Game.

The Maryville Feds suddenly got a hitting eye upon them yesterday afternoon in their game with Shenandoah and took the Red Sox, who had defeated them in the first game of the season, 2 to 1, straight and sure to a 9-3 defeat. The two-baggers by Tilson and Stephens in the first inning while Scott and Harris got on by a fielder's choice and error counted for three runs at the start.

Thieman, the Corning boy who is doing the hurling for the Feds, struck out fourteen men, yielded five hits only, and got two hits himself. The second was a screaming triple between center and left which he stretched into a score when third was overthrown.

The crowd was very poor and the rooting worse, most of the bleechers' fun being taken out in "kidding" the umps, Fred Newlon, and Shenandoah's coach. The visitors came to Maryville in three automobiles. Baldwin, the "Shen" blacksmith, pitched a good game, striking out ten men, but was hit hard when hits were needed to score, Maryville getting eleven.

The score by innings:

	R.	H.	E.
Shenandoah ..0 0 1 0 0 2 0 0 0—	3	5	3
Maryville .....3 0 1 3 0 0 2 0 x—	9	11	7

Summary: Two-base hits — Tilson, Stephens. Three-base hits—Thieman, Stephens. Bases on balls—Off Baldwin 3, off Thieman 1. Hit by pitched ball—By Thieman 2. Struck out—By Baldwin 10, by Thieman 14. Left on bases—Maryville 6, Shenandoah 9.

TIRPITZ STILL IDOLIZED

Retired German Admiral Gets Scientific Honor Seldom Given to Military Man.

Special to The Democrat-Forum.

Berlin, May 31.—Grand Admiral von Tirpitz, who was forced into retirement by the U-boat controversy, is still the idol of all classes in Germany. This is proven by thousands of letters received by him from every part of the empire and his election to honorary membership of the Society of Mine Owners and Mining Engineers of Rhenish-Prussia. Only once before in the whole history of the society has this honor been bestowed upon a man who was not a mining expert. In 1878 the organization elected Prince Bismarck, the iron chancellor, to membership.

DANIEL BROWN 83, DIES

SKIDMORE MAN SURVIVED BY TEN CHILDREN.

Came From Illinois in 1869 to West Nodaway—Funeral This Afternoon.

Daniel Brown, 83 years old, died at his home in Skidmore yesterday morning at 5 o'clock following a long illness.

Mr. Brown was born in Rock Castle, Kentucky. He remained in Rock Castle until after Lee's surrender in 1865 and he then moved to Illinois, living there four years. He moved to Nodaway county in 1869 and located two miles west and one mile north of Skidmore, where he remained until 1902.

After coming to Nodaway county he bought forty acres of land. He had married in Kentucky and was the father of several children. He was taken with an illness that lasted eighteen months and reduced to almost dire poverty and only part of the land had been paid for. However, when he had sufficiently recovered he went to work. He had a team and about six months' provisions and in time he was able to pay his debts and year by year he was able to save and the money was invested in land until in 1902 when he sold out to leave the farm he owned 400 acres of land.

Mr. and Mrs. Brown (the latter died in 1896) were the parents of eleven children, ten of whom are living. They are: Mrs. Bettie Singleton, Huntsville, Mo.; Mrs. Nettie Steel, Bedford, Ia.; Mrs. Thomas Martin, Skidmore; Mrs. Clyde Gilliland, Skidmore; Mrs. C. Collins, Skidmore; Mrs. R. E. Bender, Skidmore; Jonas F. Brown, Skidmore; Charles Brown, Skidmore; Frank Brown, Canadian, Texas; and George Brown, Burlington Junction. He is also survived by thirty-nine grandchildren.

The funeral services were held this afternoon at 2 o'clock at the Christian church in Skidmore. The Rev. S. D. Harlan conducted the services. Burial was in the Skidmore cemetery.

FIRST MEETING A ZAPOTA.

Miss Ora Barmann Gives Friends Taste of Tropical Melon.

Maryville people are getting an introduction to the zapota, a tropical melon shaped much like a cantaloupe, having three large seeds. Miss Kate Schenck says that it tastes like a mixture of cantaloupe, pumpkin, sweet potato and papaw, after which it was unnecessary for her to remark that one has to learn to like them. The fruit, vegetable or whatever it is was brought back from San Salvador by Miss Ora Barmann.

CARRANZA AGAIN ASKS WITHDRAWAL

SAYS U. S. INTENTIONS ARE UNDER GRAVE SUSPICION.

"WITHDRAW AT ONCE" IS MEXICAN DEMAND

De Facto President Points Out That Purpose of Expedition Has Been Fulfilled.

Special to The Democrat-Forum.

Washington, May 31.—Carranza's note to the United States in which it was understood that he again demands the withdrawal of troops in Mexico, was delivered to the state department today by Arredondo, Carranza's embassador designate here.

Officials state that the department believes that the delivery of the note brings the Mexican situation to a head.

The contents of the note became public late this afternoon. Carranza repeats the demand formerly made that the American troops be withdrawn from Mexico at once. The de facto president very plainly states that a failure to recall the U. S. soldiers will cause great suspicions as to the real intention of the United States government.

The note says that if the intentions of the United States are sincere, then the troops will be ordered out at once. The note is declared to be firmer in tone than any previous one which has been received. What the answer will be is most problematical officials assert.

While it has been stated right along that the United States troops will not be withdrawn, it is pointed out today that the way has been paved for a gradual withdrawing of the soldiers. The killing of the great bandit leader, Cervantes, makes it easy to say that the bandit bands have been broken up and thus the purpose of the punitive expedition has been accomplished.

Mysterious Movement of Troops.

Columbus, May 31.—Advices from the interior of Mexico today are that Julio Acosa, one of Villa's noted bandit leaders, is moving toward the southern detachments of General Pershing with 250 regular soldiers and an unestimated number of conscription peons. He has apparently allied himself with the de facto government as his moving is not being molested by the Carranzista forces.

Wreck on Mexican Road.

Neuvo Laredo, Mexico, May 31.—A passenger and freight train collided on the National R. R. near here today and a number are reported killed.

TRUCKS DOING WORK

GREAT DEEDS OF THE U. S. MOTOR CORPS IN MEXICO.

OVER UNBELIEVABLE ROAD

"Could Move New York to California and Back Again, if Given Time" Says Captain.

Special to The Democrat-Forum.

Columbus, N. M., May 31.—A motor truck transportation system, operated over roads composed in unbelievable ration of ruts, on schedules as exacting as those of any railroad—such is the scheme of things by which 17,000 of Uncle Sam's soldiers in Mexico are kept clothed, fed and provided with arms and ammunition.

In a little frame shack that is the office of Major Madden, Captain Pearson, Captain Lee and Captain Hansen, the four directing heads of the base quarter-master department, is a road map covering all stations of United States troops in Mexico.

Every day numbered pins are shifted along this road map, and each shift marks the progress of a truck train. Invoices, showing just what each truck in each train carries, and just where each load is consigned, are kept on file. Never for an instant is any item, from a package of pins to a bale of hay, lost sight of. Never until the truck train commander turns over receipts for his load is an invoice taken from the "live" files.

There are ten truck trains of twenty-seven cars each. A commissioned officer commands each train, and with him is another officer who commands the truck guard, consisting of one soldier to each truck.

As the train goes on down the line of communication, reports are flashed back to Major Madden's office, and the pins on the chart are moved accordingly.

The exigencies of the campaign are forcing small detachments out along the border for patrol duty, some of them twenty or thirty miles from a telephone or telegraph line. The quarter-master's department is therefore considering establishing a border-wise automobile transportation line to carry supplies to the outlying patrols.

Two captains in the trucking service have left the base camps here in the past week to work out a feasible route with the chief quarter-master at San Antonio, and with their departure comes the announcement from Washington that three more truck trains have been ordered from a large eastern factory to carry on the new line of activity.

Eighteen hundred miles of border and twenty thousand soldiers sound like an undertaking. But here is what the transportation captains say:

"Give us trucks enough and we can move New York to the Gulf of California and back again."

'Chain' Tread One of the Five

Experience, the Teacher of Tire Lessons

The experience of your last week-end holiday trip has told you something about the tires you use—

—That they *are*, or they *are not*, the particular tires suited to your particular car.

Experience taught the United States Tire Company that *all* tires are not suited to *all* cars.

That is why the United States Tire Company makes five different tires—a tire to meet every need of price and use—the *only complete line* offered by any tire manufacturer.

One of the five is made for your car—will give you the lowest cost per mile.

"Cannon Ball" Baker's transcontinental world's record car was equipped with United States 'Balanced' Tires. Baker says: "No other tires would have stood the test."

Ask the nearest United States Tire Dealer for your copy of the booklet, "Judging Tires," which tells how to find the particular tire to suit your needs.

AMERICA 'TIGHTEST'

LESS GIVEN FOR RELIEF THAN BY ANY OTHER LAND.

GIFTS BY FEW PERSONS

Mass of People in United States Little Touched by Worst Suffering the World Has Known.

The nation-wide appeal for funds for the relief of the innocent sufferers by the war in Europe and Asia issued by the Federal Council of the Churches of Christ in America contains a statement of the facts in regard to the American efforts at relief which shows that they contrast poorly with those of other nations. It says in part:

"The Belgian Minister of Finance stated recently that our country has given seven millions directly to Belgium. In other words only seven cents per capita; while New Zealand, bearing its own war burdens, has given a dollar and a quarter per capita to Belgian relief. England, staggering under the war load, has received and cared for thousands of Belgian refugees, and given millions of pounds beside.

"It was thought that the United States , the only great nation untouched by the war, might furnish the food supplies for Belgium, but the Commission was obliged to ask food from the whole world to save Belgium from starvation. It must be remembered also that the gifts to Belgium from our country include the large contributions from our philanthropic foundations, so that the total of popular contributions is smaller than it appears.

$1 for Each Sufferer

"The American Serbian Relief Committee has raised about $260,000. The British Serbian Relief Committee months ago had raised a million and a half pounds ($7,500,000) and France two million francs ($400,000).

"To the Armenians we have given about $1.00 for each sufferer, covering the entire period, and this is largely money from two or three large givers. It has not touched our people as a whole.

"This is a pretty fair indication of the way war relief is being contributed in other countries beside America. It should be said that the Jews of America have given in aid of their people generously.

"In answer to our inquiries, an officer of the Belgian Relief Committee reports that the total money gifts from this country to April 1st, 1916, to all of the war sufferers was $23,740,342. Since these gifts were compiled, the Belgian Commission alone has received somewhere around $125,000 through the efforts of the Daughters of the American Revolution in celebration of King Albert's birthday. Of course, the sums mentioned do not include the vast amount of work performed by different societies, organizations, groups of women, etc., who devote a great amount of their time to providing all sorts of surgical necessities. No price has ever been put on this material. It is merely shipped to one of the allied countries."

Surprise for Miss Halley

Mrs. Harry Fasken, nee Kathleen Wells, who eloped and was married to Mr. Fasken in Liberty last week, was the only member of the cast not present.

Picnics Yesterday.

Picnics would have been more popular yesterday had it not been for the fact that drouths are unknown in these parts during the month of May, at least this year.

However, several parties "hied" "hiked" or motored to the river and after a trip through mud arrived at the banks of the 102 river or Horseshoe lake and dropped the fish a line but being Decoration Day even the fish left home and out of about twenty fishermen that sat on the banks through the afternoon only one was known to have landed a small catfish. Everyone was the happy recipient of countless bites—"skeeter" bites, however.

Misses Mary, Lillian and Kathryn Carpenter, Hazel Vandervoort, Blanche Gray, Messrs. Clarence Cook, Flemming Carpenter and Dewey Covey formed one party.

Misses Mary Wooldridge, Mary Heifner, Laura Curfman, Elfreida Linville, Geraldine Clark, Messrs. Harley Hughes, Merle Selecman, Kenneth Van Cleve, Eugene Martin and Martin Lewis, chaperoned by Misses Lois Halley and Grace Langan, had a picnic including a boat ride and feed.

Why We Are Opposing A Government Armor Plant

To the People:

Some people say that the very fact that the Bethlehem Steel Company is so aggressively fighting the proposal to build a Government armor plant is conclusive proof that the Company is seeking to assure for itself the "vast profits" derived from private manufacture.

The fact is that armor making is the least profitable feature of steel manufacture.

* * *

The reason we oppose a Government plant is very simple. It is this:

Even though there is but little profit in the making of armor, we have invested over $7,000,000 in our armor plant;

That plant is useless for any other purpose; if a Government plant is built the usefulness of our plant is destroyed.

It would be good business for us to make armor for the Government at any price over and above the actual shop cost, RATHER THAN SACRIFICE OUR ENTIRE INVESTMENT.

* * *

We do not seek to save big profits; our purpose is very frankly to save our armor plant—itself built solely for the use of the Government—from going to the scrap heap.

To do that, we are prepared to agree for any period to any terms of manufacture which the Federal Trade Commission shall say absolutely protects the Government of the United States.

Kansas City Market Letter.

Kansas City Stock Yards, May 31, 1916.—Under the impress of 14,000 cattle here and 21,000 in Chicago, buyers today attempted to force a reduction here from the strong close of the market last week, 35c to 50c higher for the week. But they had little success, closing sales stronger. There were several features, among them the sale of heavy beef steers at $10.50, fed at Tulia, Texas, in the Panhandle country Odd head of natives brought $10.50, sales from $10.00 to $10.25 were numerous, and native steers seldom get below $9. Range on the forty cars of pulp steers here was $9.70 to $10.10 except four cars of 1,000 pound steers at $9.35.

Butcher grades took on the full strength of the situation last week, and retained today, strictly prime cows up to $8.75, and mixed yearlings $10.00. A run of twenty-five cars arrived in the quarantine division and sold quickly at good prices, comparisons being difficult on account of the small supply in that section recently.

Straight grass steers from south Texas brought $8.15, south Texas steers caked a little, $8.50; north Texas fed steers $8.85, Oklahoma common grassers, $7.00. Stockers and feeders held steady with the close of last week, but again there is a feeling that a break is imminent. Pastures are full as a rule, and the demand shows signs of decreasing. Most of stock steers range from $7.50 to $8.50, choice thin steers of all weights up to $8.85, although packers pick up practically all the feeders.

Hogs sold 5c to 10c lower today, receipts 17,000 head. Demand was excellent from all sources, and local prices showed more strength than prices at any other market, top $9.75, within 5c of Chicago top, same as St. Louis, 5c above St. Joseph and 10c above Omaha. Bulk of sizes ranged from $9.45 to $9.70, and light hogs stopped at $9.60. The market has been weakening since Tuesday of last week, although there were signs of a failure of the effort to bear prices at the close of last week. Good runs all around this morning gave the situation over to buyers in a measure, but opinion is still divided as to whether or not we will get a very severe break with the usual June runs.

Sheep and lambs have been slipping for a week, and took a big slice today, prices off 25 to 50 cents, and about 75 cents lower for the week. Receipts included Arizona spring lambs at $11.25,, only 25 cents under top in Chicago for spring lambs today, clipped westerns here at $10.50. Texas clipped wethers on the revised selling prices going at $7.75 to $7.90, brusher goats $5.60 and $5.65, these showing less decline than anything else in the sheep house, fat goats quotable at $5.60 to $6.00. Receipts were 10,000 head, including 1,600 Arizona spring lambs, 2,000 Texas muttons, 1,500 goats, balance clipped westerns, native springs and mixed stuff.

German Coffee Cake

Made Without Yeast

By Mrs. Janet McKenzie Hill, Editor of the Boston Cooking School Magazine.

There is no warm bread quite as appropriate for Sunday morning breakfast as German Coffee Cake, yet it is seldom made by housewives who do not bake their own bread. If K C double raise Baking Powder is used it will be just as good as if raised with yeast and it will have the further advantage of being fresh and warm. Save this recipe and try it next Sunday.

K C German Coffee Cake

Two and one-fourth cups sifted flour; 3 level teaspoonfuls K C Baking Powder; 1 level teaspoonful salt; 2 tablespoonfuls melted butter; 2 tablespoonfuls sugar; 1 egg; milk.

40

Sift dry ingredients together, beat the egg, add milk and butter to the egg to make one and one-quarter cups; stir all together with inverted spoon to a stiff batter. Turn into biscuit pan and spread even. Brush top lightly with melted butter. Sprinkle sugar and ground cinnamon over the top. Bake in moderate oven.

Dutch Apple Cake or Prune Kuchen can be made with this same batter by covering the top with pared and sliced apples, or cooked prunes with the pits removed, skin sides down Dredge with sugar and cinnamon the same as for Coffee Cake.

"The Cook's Book" contains 90 just such delicious recipes. You can secure a copy *free* by sending the colored certificate packed in 25-cent cans of K C Baking Powder to the Jaques Mfg. Co., Chicago, being sure to write your name and address plainly.

"PLEASE DON'T ROB ME!" HIS PLEA TO BURGLARS

Jeweler Tries New Method to Keep Stock Intact—Has Appeal Published.

Paterson, N. J.—If there is any sporting blood in the veins of the industrious burglars who have made professional visits to Leon Friedmann's jewelry store here at regular intervals it is hardly possible that they can ignore their victim's final appeal.

Double locks, bars, burglar alarms and watchmen having proved equally futile, Friedmann decided to make a personal entreaty to the entire profession of burglars after a visit which cost him $2,000. He wrote this communication and caused it to appear in both the afternoon papers here, on the theory that an up to date burglar must read one of the two:

NOTICE TO BURGLARS.

Gentlemen—Members of your profession have called upon us with great profit to themselves of late. We feel that we have done our share toward your support; therefore we would deem it a great favor if you would take your trade elsewhere in future, at least until we can recover from the many losses we have suffered in the past, all of which, unfortunately, are our own. Respectfully yours,

LEON FRIEDMANN.

PHONOGRAPH IN BASEMENT.

Machine Sends Music by Cold Air Duct and Heat Registers.

Brazil, Ind.—H. E. Thompson when he wishes music at his home presses an electric button on the wall and from the cold air duct and the registers of the hot air furnace come in succession ten different selections, which are repeated until the electric switch is turned off.

The music is produced by a phonograph arrangement in the basement. A circular table is arranged with ten records around it, all moved by an electric motor beneath the table. In the center of the table, pointing upward into the air duct, is a large plaster of paris horn, which is connected with the reproducing mechanism. After a record is played a cork roller carries the needle to the next record.

VICTIM ON ENGINE'S FRONT.

Thompson Was Held There by His Clothes and Was Not Hurt.

Cedartown, Ga.—A peculiar accident happened at Greenway, six miles west of here. While crossing the railroad track Riley Thompson's buggy was struck by a passing freight train going about twenty miles an hour.

The buggy was torn completely up, the mule escaping unhurt. The train stopped, the crew going back to hunt for the occupant of the buggy. They could not find him and came on into town.

Here they discovered Mr. Thompson hanging by his clothes on the front of the engine, none the worse for his experience.
